INTRODUCTORY.

Again we extend New Year's greetings to our patrons and the general public, and invite attention to this issue of the CAMBRIDGE CITY DIRECTORY, for 1894, being No. 43 of the series. The book presents its usual familiar appearance, and the standard features of it have been retained, with corresponding advantage to our advertisers, whose names are accorded special prominence by the present system of arrangement. A partial list of the City Government for 1894 is included, and the list of streets has been enlarged. We have endeavored to observe accuracy and conciseness in compiling the DIRECTORY, and to have it as reliable as is possible for a work of this kind. We shall make every effort in the future, as in the past, regardless of time or expense, to observe a high plane of perfection in the publication of the CAMBRIDGE CITY DIRECTORY, commensurate with the deserved prominence of the University City.

Our advertisers are again the recipients of our sincere thanks, and we also appreciate the assistance rendered by others in various ways.

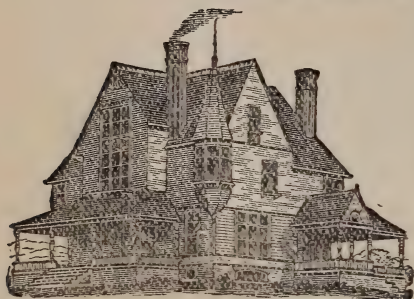

Respectfully,

W. A. GREENOUGH & CO.

VICTORY

Since our exhibit and receiving the *highest award* at Chicago, great interest in our products has developed in all parts of the country, and this awakening is not confined to physicians and scientists alone, but the *people* generally.

Our sales also show a market increase, and we are shipping goods to the North, South, East and West. Our Brandies, Whiskeys, &c., purified and matured by the aid of science are found to be the only safe stimulants for the sick and convalescent; and the leading physicians prescribe them.

Our process also develops to a high degree the rich, smooth flavor and standard strength found only in the oldest liquors, which the public seldom get by reason of their scarcity and high cost.

Don't injure your health by using *adulterated goods* when you can be sure of receiving from us those that are absolutely pure and correct. Our goods are found at all leading druggists, in sealed bottles bearing our trade mark, and at our store.

PACH'S * STUDIO.

The talent for seizing at once upon the best points of a sitter is essential to the success of a photographer no less than to that of a portrait-painter, and the lack of it accounts for the failures of pictures, which, though they may have all mechanical advantages, want taste of arrangement.

THE MANAGER OF

✠ PACH'S PHOTOGRAPH STUDIO, ✠

IN CAMBRIDGE.

MR. H. WILLIAM TUPPER. has had an experience in the practice of his art such as few have been privileged to obtain. For a period of sixteen years he was brought in frequent contact with HUNT, FULLER, PORTER, ROUSE, MUNZIG, and other BOSTON ARTISTS, and, having a natural taste for art, became thoroughly imbued with the ideas of these painters. Their influence has naturally done much for the excellence of his work, especially in regard to the lighting of the picture and the posing of subjects, so as to give that view which combines the best aspect of the face with its most characteristic expression.—*Boston Daily Advertiser.*

 5-5 Signal for no School  
 12 12 Military Call

### Instructions to Key Holders.

Alarms to be given from the box nearest the location of the fire.

Do not give an alarm for a fire seen at a distance, unless assistance is called for.

To give an alarm, open the door, pull the hook to the bottom of the slot once, and let go. Each box contains a small bell, which, if heard before you pull, indicates that an alarm has been previously given, and by listening at the box, you will learn the number of the box, from which the alarm was given, but in no case will you pull the hook while the alarm is striking. After giving the alarm, remain at the box, so as to direct the firemen to the fire. Be sure that you lock the box before leaving it.

Citizens are requested to inform themselves where keys to the signal boxes are kept, signs suitably inscribed being placed over each box giving the requisite information.

### Instructions to Fireman.

First alarm will be given by striking *three* or more rounds.

Second alarm will be given by repeating the first.

Third alarm will be given by striking *three blows twice* on the gongs and bells.

General alarm will be given by striking *three blows three times*.

In cases where hook and ladder companies only are wanted, the call will be given by striking *five blows*.

Companies not required to respond to first or second alarms will be notified of the extinguishment of

the fire by *two blows* on the gongs, that their services will not be needed and that orders have been given to "make up." Should an alarm be given from any box while a portion of the department is engaged at a fire, the apparatus not in service will respond.
